

# KID'S CORNER

## TIPS FOR MOVING WITH CHILDREN

- Involve your kids in the planning process so they feel a connection to their new home.
- Consider the timing of all aspects of the move, such as the school year, weather, and holidays to make their transition smooth and fun.
- Create a routine as soon as possible and replicate familiar aspects of home in your new destination.
- Be mindful of their feelings and give them space to express themselves and their concerns.
- Help them make new friends by joining local groups and clubs, but still keep their ties to home through social media, calls, and mail.
- Explore your new surroundings together!
